### **Homework Policy**

Work assigned outside the classroom as practice for concepts and skills, or as background to participate in the next day's lesson will not be used in the calculation of a grade on an outcome, component, or a subject. The students' work will be corrected, feedback will be provided and work completion will be recorded. Students are expected to complete work as assigned in order to practice essential skills for which students will be held accountable. The record of work completion will be used to help determine a student's "Citizenship/Employability Skills".
